

## 👋 Hiya! (Me)

I am a UI/Product Designer based in London with solid UI Design skills. My passion is to create modern design solutions for web & mobile for users to engage with whilst making their life easy through pleasurable experiences. The most recent years of my career have been within start-ups, where I autonomously implemented design systems, workflows, production tools, & UI/UX methodologies, adding quality & growth to digital products.

## 🔧 My toolbox

Figma  
Sketch  
Adobe Creative Cloud  
Proto.io  
Principle for Mac  
Notion  
Miro  
and more .....

## 👤 Recent works

**Stint** - Work gig app

6 months Contract to Permanent • Dec 19 – Nov 22

**UI/Product Designer - London**

As Stint's longest-standing sole designer, I introduced them to design systems, design workflows, production tools UX methodologies, like user testing. I worked on all products, b2c & b2b, taking ownership of the UI whilst concurrently designing most of the features existing today.

**iPlato (myGP)** - Healthcare

Permanent • Mar 19 – Oct 19

**Mobile UI/UX Designer - London**

I worked on the prescription delivery & medical records access features, both new. I also created the first design system for the mobile app. I used UX methodologies such as user testing & groups, and surveys for both projects.

**Aperos Frenchies** - Events app

Contract • July 18 – Feb 19

**UI/UX Designer - London**

I created all user-flows and UI for mobile app (b2c) & web app (admin).
